EDUCATION

B.Tech in Computer Science and Engineering

Vishnu Institute of Technology (VITB), Bhimavaram

2021–2025

CGPA: 8.61

Board of Intermediate Education

Tirumala Junior College, Bhimavaram

2019–2021

Percentage: 96.6%

WORK EXPERIENCE

Programmer Analyst Trainee

Cognizant Technology Solutions

July 2025–Present

Hyderabad, Telangana

TECHNICAL SKILLS

Programming Languages: SAP ABAP, Python, Java, HTML, CSS, JavaScript, SQL.

Technologies/Frameworks: React.js, React Native, Next.js, Node.js, Express.js, Bootstrap, Tailwind CSS

Web Development Tools: VS Code, GitHub, GitHub Desktop, Postman, Android Studio

Cloud/Databases: MongoDB, Firebase, Supabase, Convex

PROJECTS

Student Records Maintenance System | Module Pool Program with Table Control

- Created a custom table named ZMP_STUD_2439886 with fields for Student ID, Name, Grade, and Subject.
- Implemented Table Maintenance Generator and custom transaction code for table maintenance.
- Developed module pool program with table control enabling Create, Change, and Display functionality.
- Built full CRUD operations with proper field validations and user authorization checks.
- Delivered user-friendly screens with appropriate flow logic and PAI/PBO modules.

Business-Directory | React-Native, Firebase

- App link – [business-directory](#)
- Implemented an interactive mobile app that lets users explore various business fields, create and grow their businesses, and receive client reviews to foster growth.
- Integrated **Firebase** for real-time database management and **Clerk** for secure authentication and hosting, enabling dynamic updates and instant data synchronization.

Ticketer | Next.js, Convex

- Live – [ticketer](#)
- Designed a Seamless SaaS platform for event ticketing, streamlining reservations and ticket sales. Designed a user-friendly interface with real-time updates and scalable management for high-traffic events.
- Maintained a robust backend with **Convex** for real-time data synchronization, secure **APIs** for ticket management, and efficient handling of high-traffic scenarios using **Cron**.

PROFILES

LinkedIn: [linkedin.com/kanchustambham-dharanesh](https://www.linkedin.com/kanchustambham-dharanesh)

LeetCode: leetcode.com/dharaneshk2003

Codechef: [codechef.com/dharanesh123](https://www.codechef.com/dharanesh123)

CERTIFICATIONS

- **Udemy:** The Web Developer Bootcamp 2024 [[Certificate](#)]
- **Coursera:** Java Programming: Solving Problems with Software [[Certificate](#)]
- **Coursera:** Programming for Everybody (Getting Started with Python) [[Certificate](#)]
- **HackerRank:** SQL(Basic) [[Certificate](#)]

ACHIEVEMENTS

- Achieved a **5-star** Code Badge in **Python** on HackerRank, demonstrating expertise in problem-solving and proficiency in coding challenges.
- Earned a **4-star** Code Badge in **Java** on HackerRank, reflecting proficiency in coding challenges and problem-solving.
- Secured a global rank of **1828** in CodeChef **Starters 131**, reflecting strong problem-solving skills and competitive programming expertise.
- Obtained an Achiever Badge from Coding Ninjas.
